6th International Meeting on Aortic Diseases

New insights into an old problem

CHU Liège, APF

PRELIMINARY PROGRAM

September 12-14

2018

Les Comtes de Méan
Liège, Belgium

www.chuliege-imaa.be
We are really honored to announce the sixth edition of the International Meeting on Aortic Diseases that is organized from September 12 to 14, 2018 in Liège, Belgium.

Once again, the main goal of the International Meeting on Aortic Diseases (IMAD) is to gather all cardiovascular clinicians and scientists to share their experiences on basic research, genetic aspects of aortic aneurysms, aortic dissections, aortic graft infection and their treatment as well as on the new pathophysiological concepts in bicuspid aortic valve, TAVI indications and surgical treatment of aortic valve diseases and also, to provide information about the latest innovations in spinal cord protection.

You are a vascular or a cardiac surgeon, you are a radiologist, a cardiologist, a geneticist, a biologist, an epidemiologist and/or any scientist, you are welcome in Liège where you’ll have the opportunity to share the experiences of the most renowned experts on aortic diseases. During our “Ask to experts” sessions, you can discuss your challenging cases and also receive answers from them to any question you would have.

We look forward to welcoming you in Liège and to sharing experiences of the most renowned experts on aortic diseases. During our “Ask to experts” sessions, you can discuss your challenging cases and also receive answers from them to any question you would have. We look forward to welcoming you in Liège and to sharing experiences of the most renowned experts on aortic diseases.

Natzi Sakalihasan and Jean-Olivier Defraigne

Under the patronage of:

- University of Liège
- Cardiovascular Surgery Department of CHU of Liège
- Province of Liège
- APF (Aneurysmal Pathology Foundation)
- Faculty of Medicine, ULg
### Wednesday September 12

### TABLE OF CONTENTS

- Wednesday September 12 . . . . . . 6
- Thursday September 13 . . . . . . 8
- Dinner . . . . . . . . . . . . . . . . . . . . . . 11
- Friday September 14 . . . . . . 12
- General information . . . . . . . . . . . . . . . . . 16
- Registration & housing form . . . . 18
Wednesday September 12

13.00 Welcome address, Jean-Olivier Defraigne, Vincent D’Orio

- New insights in the aortic pathology
  Per Eriskon, Florence Pinet
  Insights from transcriptomic and proteomic analysis of human aneurysmal cells, Florence Pinet
  A mechanistic link between mechanical stress and inflammation in the progression of aortic diseases, Koichi Yoshimura
  Predicting AAA growth and rupture with a skin biopsy, Kakkhee Yeung
  A novel diagnostic score for AAA based on plasma D-dimer and myeloperoxidase, Wolf-Hans Eilenberg
  Functional implications and therapeutic relevance of neutrophil extracellular traps in AAA, Christine Brostjan
  Pathological remodeling of vascular smooth muscle in AAA: a therapeutic target? Marc Bailey
  Novel biomarkers of AAA derived from genetic and epigenetic studies, Gregory Jones
  Advanced glycation end products measured by skin autofluorescence are increased in patients with AAA, Clark J. Zeebregts
  Precision medicine in thoracic aortic disease, Julie De Backer

13.42 Discussion

- New insights from rodent models of aortic disease
  Marc Bailey, Lars Maegdefessel
  Critical review of the murine AAA models for 2018, Raphaël Coscas
  3D ultrasound imaging of murine AAA, Marc Bailey
  Anatomical modifications of the PPE model in mice, Albert Busch
  Lessons learnt from the Guinea pig rat transplantation model of AAA, Eric Allaire
  Therapeutic applications of prostaglandins and thromboxane A2 inhibitors in AAA, Audrey Courtois
  Molecular pathways driving aortic disease in mouse models of ACTA2, MYLK, and MYH11 mutations, Dianna Milewicz

15.00 Coffee break

15.50 Imaging of aortic diseases
  Barry Doyle, Joy Roy
  Quantification of abdominal aortic calcification: inherent measurement errors in current computed tomography imaging, Clark J. Zeebregts
  The discrepancy between the non-automatic and semi-automatic measurement-does it influence outcome? Joy Roy
  Biomechanical wall stress and rupture potential in AAA – data from the MA3RS Trial, Barry Doyle
  Different AAA biomechanical rupture risk assessment approaches. Model fidelity versus diagnostic predictability, Christian Gasser
  Computational biomechanics and morphology of small rAAA – a report from the STAR database, Rebecka Hultgren
  IVUS and CO2 angiogram for aortic disease: strategy to minimize the use of contrast, Igor Sincos
  Role of 3D printing in aortic surgery, Ramesh Tripathi

16.20 Discussion

- Radiation exposure
  Nicos Labropoulos, Anders Wanhainen
  Strategies for optimal occupational radiation protection during vascular intervention, Bijan Modarai
  Dose optimized imaging protocols to reduce radiation exposure during complex endovascular aortic repair, Thanos Katsargyris
  Effect of MRI on human lymphocyte DNA: myth or reality? Alain Nchimi
  Radiation protection in the endosuite and the importance of correct use of shields, Anders Wanhainen

18.30 End of the sessions

* BELGIAN ATTENDEES – Radiologists, cardiologists and vascular surgeons
Thanks to our partnership with the AFCN (Agence Fédérale de Contrôle Nucléaire), the session on Radiation exposure on Wednesday September 12 at 17.40 can be valued as 1 hour of continuing education.
Thursday September 13

What’s new in research on bicuspid aortopathy?
Simon Body, Bart Loeys

The complex genetic architecture of bicuspid aortic valve related aortopathy,
Bart Loeys

08.38 Protein-altering and regulatory genetic variants near GATA4 implicated in BAV,
Simon Body

08.46 New insights in the genetics of aortopathy and BAV in Turner syndrome,
Aline Verstraeten

08.54 The current understanding about aortic wall disease mechanisms in BAV,
Nimrat Grewal

09.02 Circulating microRNAs in bicuspid aortopathy, Evaldas Girdauskas

09.10 TGF-b/ENG ratio in bicuspid aortopathy, Alessandro Della Corte

09.18 Discussion

What’s new in management of bicuspid aortopathy?
Alessandro Della Corte, Hector Michelena

09.35 Fluid dynamics simulations to understand BAV aortopathy mechanisms and risks,
Luca Koechlin

09.43 Searching for early biomechanically-driven indexes of aortic remodeling:
where are we at? Emiliano Votta

09.51 Advanced imaging biomarkers in bicuspid aortic valve disease surveillance,
Malenka Bissell

09.59 Gender-related differences in bicuspid aortopathy history and outcomes,
Hector Michelena

10.07 How does the current knowledge on BAV aortopathy impact valve repair?
Alessandro Della Corte

10.15 Phenotype-guided surgical treatment of bicuspid aortopathy, Ruggero De Paulis

10.23 Discussion

10.50 Coffee break
Ask to expert I [Nagelmackers room – Level 2]
Place of the laparoscopy in the management of the Type 2 endoleaks,
Nicos Labropoulos, Jean-Paul Lavigne

Short communication: unusual complication of IMA embolisation for type 2
endoleaks, Arnaud Kerzmann

TAVI
Patrizio Lancellotti, Thomas Modine

11.20 Overview on ongoing randomized clinical trials in TAVI, Patrizio Lancellotti

11.28 Is TAVR already arguable in low and moderate risk patients? Thomas Modine

11.36 Aortic regurgitation after TAVI - Can we do better? Joëlle Kefer

11.44 TAVI endocarditis, Bernard Lung

11.52 Experience from CHU Liège, Belgium, Christophe Martinez, Marc Radermecker

12.00 Perceval (suturless valve) indications at CHU Liège; a booster of the mini invasive
aortic valve replacement program, Marc Radermecker

Keynote lecture

12.08 Aortic valve reconstruction using the Ozaki technique, when and in whom?
Cesare Quarto

12.18 Discussion

12.30 Lunch break

Keynote lecture
Rodolphe Durieux

What is the aortic size threshold for TAA intervention?
Nicholas Kouchoukos, Patrizio Lancellotti, Dianna Milewicz, Christoph Nienaber

13.45 Should the criterion for surgical intervention for thoracic aortic aneurysm be
moved “leftward” (earlier)? John Elefteriades

13.55 Lesson learned from local experiences in Liège with type A dissection,
Natzi Sakalihasan

14.00 Discussion

The revised ascending aorta and aortic arch
Jean-Olivier Defraigne, John Elefteriades, N. Kouchoukos

14.15 Genetic basis of thoracic aortic disease and impact of altered gene on patient
management, Dianna Milewicz

14.23 The z-score-misleading clinical science? John Elefteriades

14.31 Arch variants, Tilo Köbel

14.39 Surgery of the aortic arch nowadays, Nicholas Kouchoukos

14.47 Arch hybrid procedures are effective and durable for arch aneurysms,
Colin Bicknell

14.55 Endo-treatment of arch and ascending aorta, Tilo Köbel

15.03 Discussion

15.30 Coffee break
Ask to expert II [Nagelmackers room – Level 2]
When and how to treat the primary aortic mural thrombus? Ramesh Tripathi

Case presentation: symptomatic ascending and asymptomatic thoraco-abdominal
aortic thrombus, Arnaud Kerzmann
Thursday September 13

Distal aortic dissection
Bijan Modarai, Christoph Nienaber
16.00 The conundrum about complicated and uncomplicated type B dissection - new concepts! Christoph Nienaber
16.08 When is a dissection to be called chronic and why? Firas Mussa
16.16 What is the role of tissue inflammation in dissection and how do we diagnose it? Natzi Sakalihasan
16.24 How can imaging tell us about the plasticity of a dissection? Biomechanical modelling and PET/CT in type B aortic dissection: development of the Perth-Liege risk score for TBAD, Barry Doyle
16.32 Temporal and morphological patterns predict outcome of endovascular repair in acute complicated type B aortic dissection, Rebecka Hultgren
16.40 Critical aortic dissections: benefit of surgical creativity out of any guidelines, Parla Astarci
16.48 Discussion

Distal aortic dissection
Dianna Milewicz, Toru Suzuki
17.10 The role of biomarkers in the setting of acute aortic syndrome? Toru Suzuki
17.18 The integration of genetic testing in the work-up of a patient with aortic dissection, Bulat Ziganshin
17.26 Is pregnancy a risk for acute aortic dissection? Anselm Uebing
17.34 How to manage acute aortic dissection in pregnancy? John Elefteriades
17.42 Discussion

Proximal aortic dissection
Colin Bicknell, John Elefteriades
18.00 The role of false lumen intervention to promote remodeling via induced thrombosis, Christoph Nienaber
18.08 How much arch reconstruction is needed in type A aortic dissection? Ulrich Rosendahl
18.16 Inching toward an endovascular solution for proximal dissection - will an Endo-Bentall see the light of day? Christoph Nienaber
18.24 Open surgery for aortic dissections, Nimesh Desai
18.32 Abdominal aortic open fenestration and other open surgical tricks: usefulness in type B dissections, Fabien Koskas
18.40 Optimised management of type A aortic dissection with visceral malperfusion - concept to reconsider, Mathias Thielmann
18.48 Discussion
19.10 End of the sessions
20.00 Official dinner

Official dinner
Thursday September 13, 20.00
Palais Provincial
All delegates are welcome to register with one guest. Seated dinner. Participation fee: 55 € per person.

Notes
Friday September 14

1. Epidemiology and natural history of AAA
   Hans-Henning Eckstein, Rebecka Hultgren
   08.30 When is the prevalence too low to motivate continued screening? Sverker Svensjö
   08.38 The New Zealand AAA-specific risk scoring tool. Gregory Jones
   08.46 Aneurysm rupture is not simply a mechanical event: how so and what are the implications? Rao Vallabhaneni
   08.54 Female sex is not an independent risk factor for higher periprocedural mortality rates of AAAs - the nationwide Swedish DRG microdata from 2000-2016 on >50,000 cases, including socioeconomic aspects, Rebecka Hultgren
   09.02 Why do women have higher operative mortality than men for aortic aneurysm repair? Janet Powell
   09.10 Do all 25-29 mm ectatic aortas progress to AAAs actually needing repair? Sverker Svensjö
   09.18 Discussion
   09.42 Frank Lederle lectures, Ronald Dalman

10.05 Coffee break
   Ask to expert III (Nagelmackers room - Level 2)
   How can we avoid spinal cord ischemia during TEVAR/EVAR for Aortic aneurysms? Robin Heijmen, John Elefteriades
   Case presentation: paraplesia, a rare complication of EVAR for AAA, Vincent Tchana-Sato

1. Medical treatment of AAA
   Ronald Dalman, Anders Wanhainen
   10.35 AAA: is there a role for the prevention and therapy using antioxidants? Joël Pincemail
   10.45 Could metformin be a drug effective in limiting AAA growth and requirement for surgery: data from a large group of cohorts, Jonathan Golledge
   10.55 Ticagrelor and the inhibition of growth in small AAAs – results from a RCT, Anders Wanhainen
   11.05 The role of fish oil in the natural history of AAA, Jes Lindholt
   11.15 Hormone replacement therapy and AAA - A HUNT study based on 20,000 women, Rebecka Hultgren
   11.25 Role of resveratrol and the bone protein sclerostin in protection from AAA, Jonathan Golledge
   11.35 Cipro and the aorta - Fluoroquinolone attack? Bulat Ziganshin
   11.45 What diabetes can teach us about AAA? Ronald Dalman
   11.55 Discussion

Keynote lecture
   12.15 Prevention of the neurological complications, Robin Heijmen
   12.30 Lunch break

1. EVAR & TEVAR
   Colin Bicknell, Kakkhee Yeung
   13.45 EVAR or open: what is the best option for patients and society? Jan Lindeman
   13.53 The role of open surgery for AAA in the endovascular era, Franco Grego
   14.01 The effect of clinical, psychosocial and socio-demographic variables on mental and physical functioning after vascular surgery, Colin Bicknell
   14.09 The UK Complex Aneurysm Study: an overview, Rao Vallabhaneni
   14.17 Endoleaks in EVAR, risk factors and prevention, Eric Allaire
   14.25 Wide proximal aortic neck in the outcome of EVAR, Athanasios Giannoukas
   14.33 Acute kidney injury after endovascular surgery: results from a pilot randomized controlled trial and a cohort study, Athanasios Saratzis
   14.41 Importance of changes in thoracic and abdominal aortic stiffness following stent graft implantation, Christos Liapis
   14.49 Prevention of stent graft migration after TEVAR: mathematical model, Lazar B. Davidovic
   14.57 Results of endurant study (follow-up and comparison with Ace study), Jean-Pierre Becquemin
   15.05 What do we know about AD risk factors for later problems? Jan Brunkwall
   15.13 Discussion
   15.30 Coffee break
   Ask to expert IV (Nagelmackers room - Level 2)
   Spinal cooling catheter: new concept in paraplesia prevention, John Elefteriades

1. Associations in aortic aneurysmal disease
   Thomas Bilfinger, Nicos Labropoulos
   16.05 Arterial aneurysms associated with the aorta, Nicos Labropoulos
   16.13 Is AAA a risk factor for neoplasia? Natzi Sakalihasan
   16.21 What is the association between AAA, hernia and simple renal cyst? Apostolos Tassiopoulos
   16.29 Incidence of AAA is higher in the patients with COPD and smoking - why? Thomas Bilfinger
   16.45 Cardiovascular risk management in patients with small AAA, Matthew Bown
   16.53 Discussion
Friday September 14

Management of aortic graft infections
Rebecka Hultgren, Ramesh Tripathi
17.15 Is conservative management of graft infections justified? Ramesh Tripathi
17.23 Endovascular repair is effective in emergency but definitive excisional graft removal is the aim for all infected aortic grafts and endografts, Colin Bicknell
17.31 The place of allografts in the management of aortic graft infections, Evelyne Boesmans
17.39 Treatment of vascular infection with arterial homografts: 27 years of experience at European Homograft Bank (EHB) in Brussels, Ramadan Jashari
17.47 How to treat an infected aortic endograft by in-situ reconstruction with pericard tube grafts? Hans-Henning Eckstein
17.55 Discussion
18.30 Awards ceremony and adjournment

Industry grants

Following the new MedTech regulations, direct sponsoring from the Industry is no longer possible.
Fortunately, you can apply for educational department grants through your Hospital:
• Your department can apply for a Grant to cover your registration fee, travel and hotel accommodation expenses.
• The grant must be sent by your hospital.
• Your application must present the provisional cost per HCP: 1100 euros for Belgian HCP, 1450 euros for European HCP (incl. registration fee, up to 3 nights at the congress venue, transport from/to Liège and the official dinner)
• Your application letter needs to be signed by the Head of Department or the Hospital Director

We recommend you apply 6 months before the meeting to maximize your success. Some companies provide an online application process.
If you need any additional information please contact us: kchey@divine-id.com

Notes
General information

MEETING VENUE
Les Comtes de Méan
Mont Saint Martin 9-11, Liège, Belgium
www.lescomtesdemean.be

ACCOMMODATION
1 Les Comtes de Méan***** (congress venue)
9-11, rue du Mont St Martin
www.lescomtesdemean.be

2 Pentahotel Liège**** (5 min. walk)
100, bd de la Sauvenière
www.pentahotels.com

The Crowne Plaza hotel is situated right in the heart of Liège, very close to the Place Saint-Lambert, various shopping and cultural centres as well as the longest open-air market in Europe. Situated a few minutes by car from Liège airport and within easy reach of the motorways from neighbouring countries. Single: €149 / Double/Twin: €170
City tax: €7 (per night and per room, due to the hotel not payable in advance).

divine [id] made reservations for participants at privileged rates at different hotels. To benefit from these rates, please return your accommodation form as soon as possible, indicating the hotel of your choice and a second choice, should the first not be available. Upon reception of the accommodation form, together with a deposit of one night accommodation, a booking confirmation letter will be sent to the participant by email. The balance has to be paid one month before arrival which means before August 16 at the very latest. The daily hotel tax and any other extra are payable directly to the hotel on departure. Any booking & changes must be communicated in writing to divine [id] before August 29. A 10% administrative fee will be applied to any cancellation required until August 15 included. From August 16, no refund will be granted. Group cancellation policy supersedes general cancellation policy. Group reservation applies to more than one participant.

OFFICIAL LANGUAGE
The official language of the sessions is English.

IMPORTANT DEADLINES
- Early bird fees: June 20
- Industry grants registration: June 30
- Abstract competition for poster or short communication: June 30
- Hotel reservation & pre-registration: August 25

TARGET AUDIENCE
- Cardiovascular and thoracic surgeons
- Anaesthesiologists
- Cardiologists
- Radiologists
- Geneticists
- Basic scientists
- Ultrasound technicians and nurses
- Students

REGISTRATION FEES
Included in the registration:
- Final program, online abstract book, access to all scientific sessions, exhibition hall, breakfasts, coffee breaks and lunches.
- Day passes for September 12, 13 and 14 are available and can only be purchased onsite.
- The first author from each selected abstract or poster of the competition will benefit from the reduced fee of 200€.

SOCIAL EVENT
IMAD Official dinner: Palais Provincial Thursday, September 13, 20.00
All delegates are welcome to register with one guest.
Participation fee: 55€ per person.
Seated dinner.

ACCESS
By car
Follow the signs “Liège” or “Luik”.
Parking
Rue des Bons Enfants - 4000 Liège
10€ per day - 20€ per 24h

By train
Liège-Guillemins train station. High speed trains from Paris, Brussels, Cologne and Amsterdam. Regional and intercity trains from most Belgian cities.
www.sncb.be

By air
- Liège-Bierset Airport. www.liegeairport.com
- Brussels National Airport (Zaventem) or Brussels South Airport (Charleroi). Then take a train to Liège (approx. 1 hour).
- www.brusselsairport.be

Refund of fee: a 10% administrative charge will be applied to cancellations up to August 15. From August 16, no refund will be given (including cancellation of registration & social event). Name changes are requested before August 25. No-shows at the congress will be charged the full fee. Refunds will be processed after the congress by end of December 2018. A one night deposit is needed upon booking to confirm any hotel reservation. The whole stay has to be paid before August 16 to avoid cancellation of unpaid nights. City tax is not included in the room rates and will have to paid directly to the hotel.

NB: Group cancellation policy supersedes general cancellation policy. Group reservation applies to more than one participant.
