Dear friends and colleagues,

We are very pleased to announce the 2020 edition of i-MEET back at the Radisson Blu hotel in Nice from September 16 to 18. As a pioneer in the Live education, this two days and a half meeting will focus on teaching and sharing. Interactivity will be at the core of the program through industry workshops, associate faculty sessions, clinical cases, videos, debates and audience discussion.

You will find the program online <http://imeetcongress.com/scientific-program>. It will be regularly updated and will address the current hot topics of endovascular techniques and procedures.

Again this year you will have the opportunity to take part to 4 workshops to be selected among a list of very interesting hands-on sessions, on Wednesday afternoon. Do not forget to register in advance. And book your seat for the official dinner on Thursday night on the Radisson Blu Hotel's beach to share with us a unique moment of conviviality. We look forward to building endovascular synergies with you and our renowned international faculty.
