EDITO

Welcome to Eurovalve 2023,

Eurovalve congress is a European congress dedicated to cardiac surgeons, cardiologists, sonographers and trainees. The next edition of this rotating event is taking place for the **first time in Milan, on September 21 & 22, at the Crowne Plaza Milan Linate.**

As you know, valvular heart disease is getting more and more frequent and now represents one of the most frequent heart diseases. Incredible advances have occurred in the last few years about valves diseases, concerning both their evaluation and their management. This year again we intend to favor more interactivity and discussions, especially thanks to several symposia, controversies, challenges, debates and round tables with experts panels.

We hope you will enjoy this Italian edition, will learn more, test your knowledge and share.

Eustachio Agricola, Jeroen Bax, Khalil Fattouch, Gilbert Habib, Patrizio Lancellotti, Philippe Pibarot & Mani Vannan

EUROVALVE Congress 2023 is compliant with Ethical Medtech business code of practice.
