HOW DID YOU LEARN ABOUT THE CONGRESS?

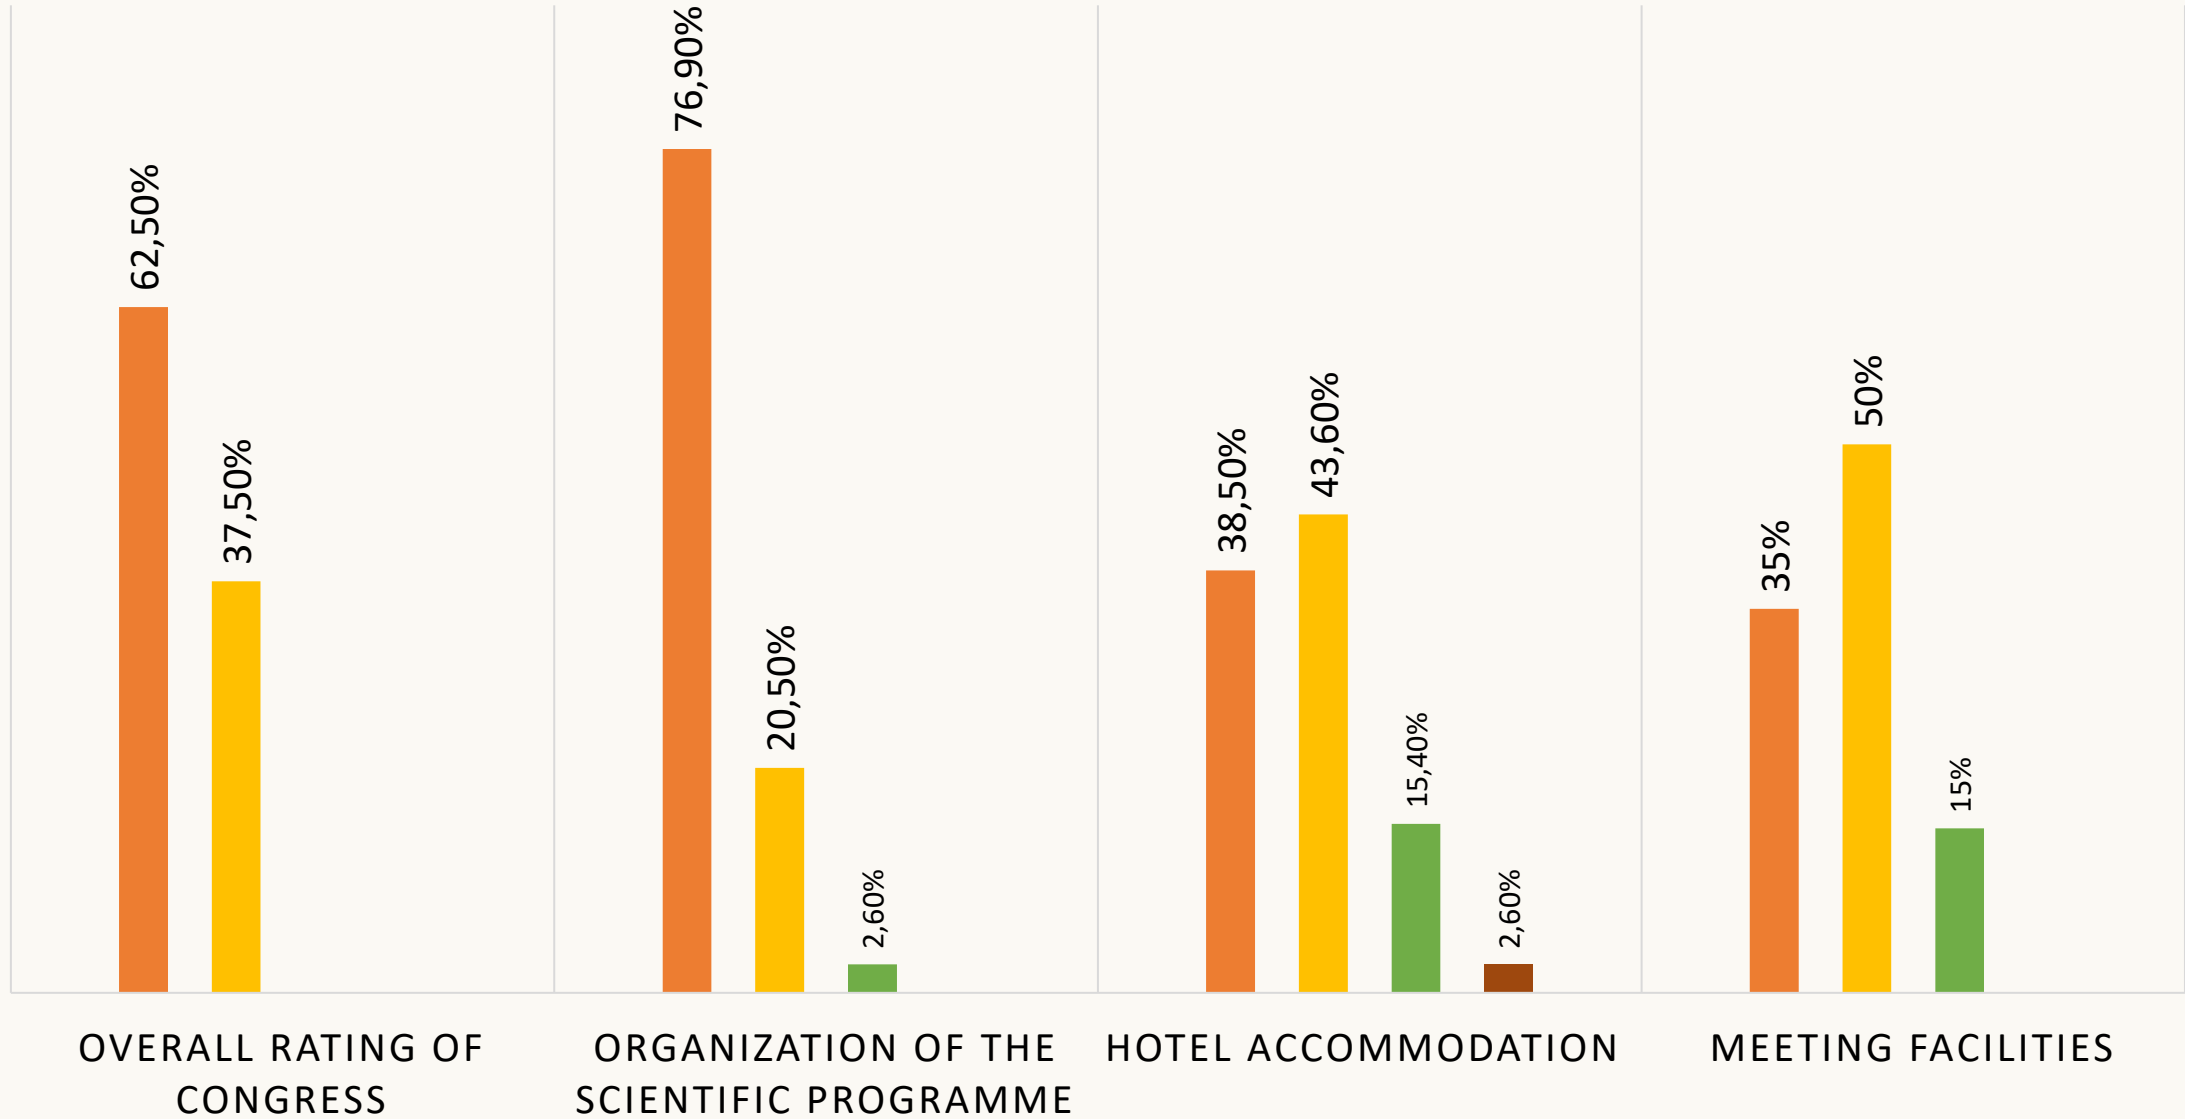

Faculty member
"I attended it more times"
Social media

PLEASE INDICATE YOUR PRIMARY REASON FOR ATTENDING THE CONFERENCE :

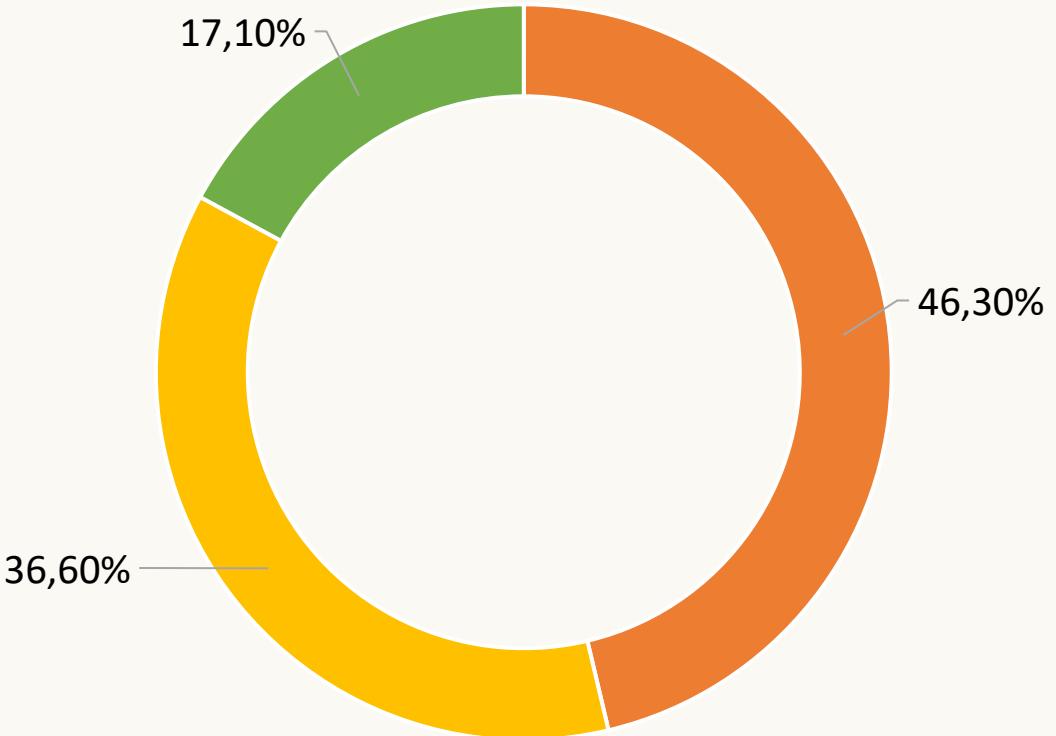

General organization

Excellent Good Fair Poor

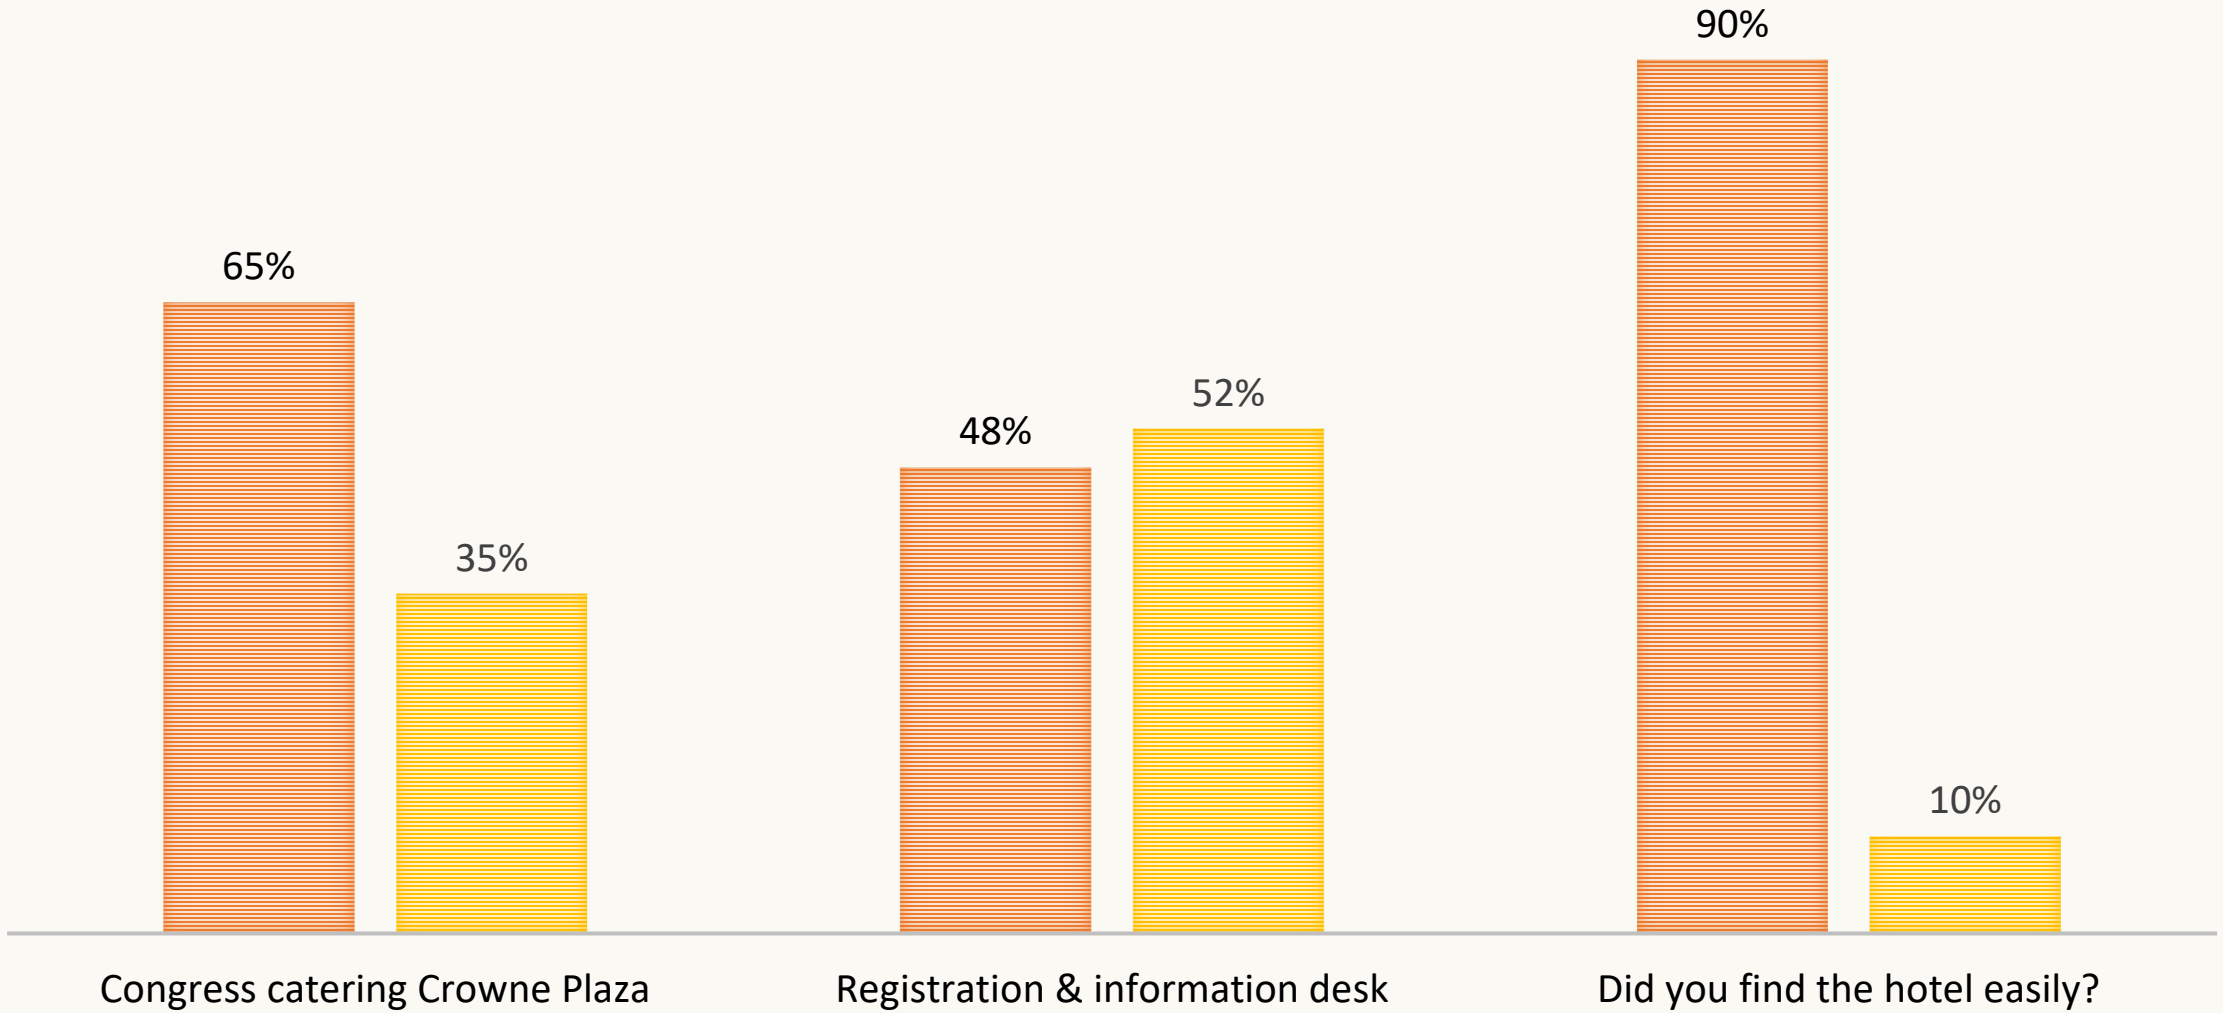

Congress staff - Divine [ID]

Reactive Available Competent

Excellent Good

YOUR TRAINING

what session of the scientific program did you appreciate the most and why ?

Each feature of heart valves disease

Endocarditis and bicuspid valve

Debate on moderate aortic AS. Hot topic

The session on moderate aortic stenosis

Endocarditis

Infective endocarditis talks as this is of particular interest to me

Degenerative mitral valve session

Challenges in valvular assessment

Challenges in arrhythmic MVP, relative new topic

Tavi for the update

Aortic valve, mitral valve

Already answered

TAVR and Mitral Regurgitate

Staging in valve disease as link between echo assessment and clinic

Mitral regurgitation because it's a real hot topic in the field

IE

All of them

Please give a summary of the information you received which will be useful in your practice

The follow-up and treatment of moderate aortic valve stenosis

Management of patients with malignant MVP. Management of polyvalvulopathies.

Update on the guideline, practical tips by the expert panel

Management of mitral valve disease and endocarditis

Importance of AI interpreting crude data and establishing gradation of disease

Update bridging anticoagulants

Warfarin therapy

How to evaluate better mitral regurgitation in asymptomatic patients

Update on the topic

Already answered

Any general comments about the meeting?

Very good update and discussions

Very interesting

I would prefer the congress venue to be downtown

Good organization, very good speakers. Would have appreciated more updates on tricuspid valve disease and it's management

Fruitful

Very nice meeting

Perfectly organized, good topics to discuss

All good

Case presentation could be more professional

Already answered

Good to have so many experts sharing opinions

Excellent food - so much better than in Cambridge last year

Next Edition

wish you to participate in the next edition ?

■ yes ■ no

Why do you want to participate next year ?

As always good meeting

Optimize my clinical and research culture

Excellent meeting. Gathering of opinion leaders

Incredible opportunity to meet expert in the field discussing about pathophysiology treatment of valvular heart disease

Valvular heart disease is my field of interest.

Reasons above

Small but very usefull convention

To learn new thing and to update my knowledge

To update my knowledge

I'm interested in the topic

Already answered

To meet experts in the field

Interesting topics and welcoming environment

what would like to see as topics for next year's congress?

The diagnosis and follow up of moderate aortic valve stenosis for a tailored therapy

Cost-effectiveness of structural interventions.

Tricuspid regurgitation

Tricuspid valve disease

Valve disease basic science

Some basic data (genetics, biology,...)

Valve Endocardites

To have the opportunity to hear from the greatest experts in the field of mitral&aortic valve disease

More imaging in structural heart intervention and indication for intervention.

Congenital heart diseases
