EDITO

Dear Friends and Colleagues,

Eurovalve congress is a European congress dedicated to cardiac surgeon, cardiologists, sonographers and trainees. The next edition of this rotating event will take place **in Liège, on September 25 & 26, at the Van der Valk Selys Hotel.**

As you know, valvular heart disease is getting more and more frequent and now represents one of the most frequent heart diseases. Incredible advances have occurred in the last few years about valves diseases, concerning both their evaluation and their management. This year again we intend to favor more interactivity and discussions, especially thanks to several symposia, controversies, challenges, debates and round tables with experts panels.

Join us, you will learn more, test your knowledge and share, for sure you will enjoy it!

Patrizio Lancellotti, Khalil Fattouch, Gilbert Habib, José Luis Zamorano, Philippe Pibarot, Mani Vannan, Bernard Cosyng & Augustin Coisne.
